MINNESOTA BULLETIN NO.190-8-6

SUBJECT: ECS-PLANT MATERIALS: LIVING LANDSCAPES IN MINNESOTA

Purpose. To distribute this publication.

Expiration Date. September 30, 2008.

The publication, “**Living Landscapes in Minnesota**” is the result of a joint effort between the Bismarck Plant Materials Center (PMC), North Dakota NRCS and the Minnesota Ecological Sciences Staff. It is based on similar publications completed in Montana and North Dakota. This publication provides guidance for landowners, government agencies, park departments and many others on the planning, design and establishment of landscape plants native to Minnesota.

Through a separate distribution, each area office will receive a supply of this publication for use with customers and partners. This publication would be appropriate as handouts at service centers, conferences, fairs and other events. It will also be available for downloading on the NRCS web site.
